2 Interactive Presentations (Washington State Contract Prices)

DigitalEdge
BUYING POWER FOR INTERACTIVE LEARNING TOOLS

SMART Board™ interactive whiteboard

SMART Technologies
Certified Master's Trainer
SMART Board Software Version 9
For Windows® Operating Systems

Interactive Learning

The SMART Board interactive whiteboard has a large, interactive screen on which you and your students can explore a website, give a science presentation or take a virtual field trip. It helps you improve student motivation and performance by making inquiry-based learning a dynamic classroom experience. You simply touch the surface to select menus and icons. To write notes, pick up a pen and write with either the pen or your finger.

Give Dynamic Whole-Class Instruction

With the interactive whiteboard, you have powerful preparation tools and a central focus in class. Before you teach, you can plan lessons at your desktop. The whiteboarding software includes curriculum-specific clip art and templates that support math, literacy and science. You can build a lesson on graph paper, a music sheet or a map of Africa. In the class, you can involve students, add notes and save all information, every step of the way.

We are Authorized to sell SMART to Washington State Schools Only

senteo™

interactive response system

The Senteo Interactive Response System

Questions can urge students to reason and ask them to contemplate. Answers should reflect the heightened understanding that comes from breaking trails. The Senteo interactive response system helps you reflect that understanding.

Senteo enables you to quiz, poll, assess and gauge student understanding with the power of SMART's *Notebook* software. Because Senteo is a fully integrated arm of *Notebook* software, it offers both potential and simplicity to teachers using the SMART Board interactive whiteboard.

- Ask questions in many ways - multiple choice (including sorting and more than one right answer), true or false and numeric responses.
- Incorporate decimals, fractions and negative numbers into questions and answers
- Assess with flexibility - ad hoc questions, summative and formative assessment
- Offer a raised-hand function to students - they can ask for help anonymously
- Offer immediate or delayed feedback to students
- Share questions and lesson plans with other teachers
- Creat personal study guides based on individual responses
- Give any unit to any student - Senteo is interchangeable
- Have unrestricted movement - Senteo works on a radio frequency remote, so no line of sight is required

MICRO Return Policy:

Our Vendors and Manufacturers continue to tighten policies regarding the return of unwanted, mis-ordered, and even defective merchandise. Our current Return Policy reflects these Vendor policies:

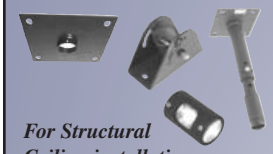
- No returns can be accepted without prior authorization. A Return Merchandise Authorization number (RMA#) must be obtained prior to returning any product.
- All returns are subject to a 15% restocking fee. Returns are not accepted on special order items.
- Unopened software may be returned within 30 days from the date of invoice. The software license must be sealed and all manuals included. Registration materials, warranty cards and packaging must be present and in saleable condition. Returns are also contingent upon the version of the product being returned.
- Hardware may be returned within 15 days from the date on the invoice. Product and all packaging being returned must be in saleable condition. All software drivers or disks must be sealed and all original components, manuals, registration materials, warranty cards and packaging must be present and in saleable condition.
- Returns are also contingent upon the current model of the product being returned. Some hardware returns may be extended to 30 days with the cooperation of the manufacturer.
- Some returns must be handled directly by the publisher or manufacturer.

Projector Mounting Accessories

CHIEF

An Industry Leader for Over 25 Years!

RPA Universal Ceiling Mount:
A Universal Inverted Ceiling Mount solution. Adjustable mounting legs for a customized installation. Quick Projector disconnect/ reconnect. Independent roll, pitch & yaw adjustments. Cable routing. 50lb capacity



For Structural Ceiling installations

Ceiling Mounts:
Uses 1-1/2" NPT Column (also available with 2" NPT Column). Quick and easy install kit allows adjustable drop distance in increments of 3/4". Plate mounts or adjustable angle mount. Cable coupler allows cable access through column.

Video Conferencing

LifeSize®

High Definition Video Conferencing

LifeSize delivers on the promise of video: face to face communication that feels as natural as being in someone's office. Using your existing broadband network, LifeSize high definition video systems provide a stunning, immersive telepresence experience at a price that is affordable and accessible to everyone who needs to communicate with colleagues across town or across the globe. Travel the world and be home for dinner. Do more. Travel less. Be present.

- *High Definition Telepresence Quality - 1280x720 - 30fps, 16x9 format*
- *Supports HD Monitors*
- *Hi-Definition Camera with Pan-Tilt-Zoom (PTZ)*
- *High Definition Audio*
- *External Audio and Video Input/Output (2 in, 1 out for both Audio and Video)*

LifeSize Express

Entry Level System:
Delivers HIGH DEFINITION video communication in an affordable, easy-to-use system.

• Point-to-Point Videoconferencing (1 station to 1 station - Bridge) • HDMI output (ONLY)

Choice of Two Configurations:

LifeSize Express with Focus Camera
• System Includes: **LifeSize Codec, FOCUS - fixed focus camera with integrated mirophone array, Remote Control**

FOCUS Camera

LifeSize Express with PTZ Camera
• System Includes: **LifeSize Codec, Pan-Tilt-Zoom Camera, Microphone Pod, Remote Control (shown above)**

LifeSize Team MP

Feature Rich System with Multi-Point:
Combines an immersive, High Definition video experience with a rich set of features to deliver a powerful, flexible, and easy-to-use video communication solution.

• Continuous Presence HD Multipoint - an embedded Hi-Def multipoint bridge allows four callers simultaneously without needing external equipment. • VGA output • Stand included

Complete Package! - Just add Display

RUCKUS WIRELESS

RUCKUS - *New!* ZoneFlex

Fills the gap between feature-poor WiFi access points and high-end costly enterprise WLAN systems. Designed with simplicity in mind - robust and secure. Easily deployed with minimal IT impact. True industrial-strength, multimedia wireless LAN in minutes at a fraction of the cost.

- **Only take 5 minutes to configure**
- **Uses Antenna arrays for greater signal strength and distances**
- **Signal dynamically adjusts to environment**
- **Use as a stand-alone AP or with a centralized controller**
- **Upgradeable to 50 AP support with additional license purchase**
